

Application Options

Blanket Application

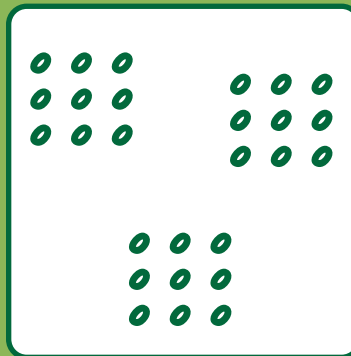

Coverage:

1 x 10kg bag = 1.65m²

1 cubic metre bag = 66m²

Spread the product evenly across the whole of your space, to a minimum depth of 15mm.

Best suited if you require a consistent full-coverage. Ideal for projects using commercial machinery for faster and more efficient product application. Saves time & effort compared to manual application

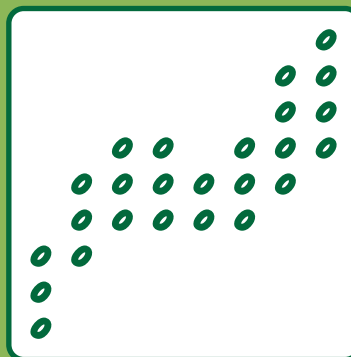

Patch Application

Coverage: 1 x 10kg bag = approx. 5.3m² if you apply 3 x 20cm patches per m²

If you prefer a sectioned approach, apply the product in 20cm patches.

Best suited for a sections, budget savvy approach when you are unable to benefit from economies of scale. Manual application

Artistic Application

Coverage:

1 x 10kg bag = 1.65m²

1 cubic metre bag = 66m²

Unleash your creativity! One of the benefits of this product is its versatility. Simply select the area you'd like to enhance and apply the product.

Best for creative flair. Whether you envision seamless, flowing sections or distinct large patches, the possibilities are endless.
